NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

(**) On 16 September 2019, the Company's Board of Directors announced a Resolution approving the policy of divesting all of the Company's investment capital in this company.

2. FISCAL YEAR AND ACCOUNTING CURRENCY

Fiscal year: The Corporation's fiscal year applicable for the preparation of its financial statements starts on 1st January and ends on 31st December of solar year.

Accounting currency: The accompanying separate financial statements are expressed in Vietnam Dong (VND).

3. ACCOUNTING STANDARDS AND SYSTEM

Accounting System

The Company applied to Vietnamese Accounting System promulgated under Circular No. 200/2014/TT-BTC dated 22nd December 2014 issued by the Ministry of Finance and Circular No. 53/2016/TT-BTC dated March 21st, 2016 amending and supplementing a number of articles of Circular 200/2014/TT-BTC dated December 22nd, 2014.

Statements for the compliance with Accounting Standards and System

The Board of General Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued to guide the preparation and presentation of the Financial Statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the main accounting policies applied by the Corporation in preparing separate financial statements:

Accounting estimates

The preparation of the financial statements in conformity with Vietnamese Accounting Standards requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the fiscal year. Actual results may differ from those estimates and assumptions.

Financial instruments

Initial recognition

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash, cash equivalents, trade and other receivables, deposits and financial investments.

Financial liabilities: At the date of initial recognition financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade and other payables, accrued expenses, obligations under finance leases and borrowings.

Subsequent measurement after initial recognition

Currently, there are no requirements for the subsequent measurement of the financial instruments after initial recognition.

Cash and cash equivalents

Cash comprises cash on hand, bank deposits.

Cash equivalents comprise short-term deposits and highly liquid investments with an original maturity of less than 3 months that are readily convertible to known amounts of cash and that are subject to an insignificant risk of changes in value.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

Financial investments

Held to maturity investments

Investments held until maturity include fixed-term bank deposits with a principal term of over 3 months for the purpose of earning interest each period.

Held-to-maturity investments are stated at cost less allowance for bad debts.

Allowance for bad debts of held-to-maturity investments is made in conformity with current accounting regulations.

Investments in subsidiaries, associates and other investments

Investments in subsidiaries over which the Company has control, investments in associates and joint ventures over which the Company has significant influence are stated at cost method in the separate financial statements.

Profit distributions that Company received from the accumulated profits of the subsidiaries after the Company obtains control right are recognized in income statement. Other distributions are considered a recovery of investment and are deducted to the investment value.

Profit distributions that Company received from the accumulated profits of the associates after the Company obtains control right are recognized in separate income statement. Other distributions are considered a recovery of investment and are deducted to the investment value.

Investments in subsidiaries, joint ventures, associates and other investments are presented at cost less allowance for diminution in value (if any) in the balance sheet.

Other investments are recorded at cost, including purchase price plus directly attributable acquisition costs. After the initial recognition, these investments are measured at cost less allowance for diminution in value of investments.

Allowance for loss of investments

Allowance for losses of investments in subsidiaries, contributions to joint ventures, investments in associates and investments in equity instruments of other entities is made when there is apparent evidence for impairment in value of the investments as at the balance sheet date.

Receivables

The receivables comprise the customer receivables and other receivables. Receivables are recognized at the carrying amounts less allowances for doubtful debts.

Allowance for doubtful debts is assessed and made for overdue receivables that are difficult to be collected, or the debtor is unable to pay due to dissolution, bankruptcy or similar difficulties.

Inventories

Inventories are measured at the lower of cost and net realizable value. Cost of inventories comprise costs of direct materials, direct labor, and general operation (if any) incurred in bringing the inventories to their present location and conditions. Net realizable value is the estimated selling price of inventory items less all estimated costs of completion and costs of marketing, selling and distribution

The value of inventory is determined using the weighted average cost method.

Inventory is accounted for using the periodic inventory system.

The Company's allowance for impairment of inventories is made when there is reliable evidence of impairment of the net realizable value compared to the history cost of inventories.

Tangible fixed assets and Depreciation

Tangible fixed assets are stated at history cost less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	2025
	Years
Machinery and equipment	8
Office equipment	3
Others	3

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Intangible fixed assets and Amortization

Software and other intangible fixed assets are stated at history cost less accumulated amortization .

Software and other intangible fixed assets are allocated to the income statement using the straight-line method over a period of 3 years.

Construction in progress

Construction in progress reflects the Properties in progress for production, leasing, administrative purposes, or for any other purposes are recognized at the historical cost. This cost includes relevant service fees, interest fees in accordance with the Company's accounting policies. Depreciation of these assets is the same as the other assets, commencing from these assets are ready for their intended use.

Prepaid expenses

Prepaid expenses comprise actual expenses arising but relevant to financial performance in several accounting periods. The Company's prepaid expenses includes:

Tools and supplies

Tools and supplies are recorded to expenses and depreciated to on a straight-line basis with useful life of not exceeding 3 years.

Fixed assets major repairs expenses

Fixed assets major repairs expenses which have significant value incurring one time which are recorded to expenses and amortized on a straight-line basis over 3 years.

Prepaid expenses for renting offices and shopping centers

Rent for offices and shopping centers shows the amount of rent that has been paid in advance. Prepaid expenses are allocated gradually into operating expenses on the straight-line method over the duration of each lease.

Payables

The account payables are monitored in details by payable terms, payable parties, original currency and other factors depending on the Company's management requirement.

The account payables include payables as trade payables, loans payable, intercompany payable and other payables which are determined almost certainly about the recorded value and term, which is not carried less than amount to be paid. They are classified as follows:

- Trade payables: includes commercial payables arising from the purchase of goods, services and assets between the Company and the seller (independent entity with the Company, including amounts payable between the Company and its subsidiaries, associates).
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

Unrealized revenues

Unrealized revenue includes: advance receipts (e.g., prepayments from customers over multiple accounting periods for leased assets, infrastructure); excluding: advances from customers for which the Company has not provided products, goods, or services; uncollected revenue from leasing assets, providing services over multiple periods.

Revenue received in advance is allocated using the straight-line method based on the number of periods in which payment has been collected in advance.

Loans and finance lease liabilities

Loans and finance lease liabilities include loans, financial leases, excluding loans in the form of bonds or preference shares with terms that the issuer is required to repurchase at a certain point in the future.

The Company monitors loan amounts and financial liabilities in details by each type and classifies them into short-term and long-term according to repayment term.

Expenses directly related to the loan are recognized to financial expenses, except for expenses incurred from a separate loan for investment, construction or production in progress, which are capitalized according to Accounting Standard "Borrowing costs".

Recognition and capitalization of Borrowing costs

All other borrowing costs are recognised in the Income statement when incurring, except for the borrowing cost capitalized under Vietnamese Accounting Standards "Borrowing cost".

Owners' equity

Capital is recorded according to the actual amounts invested by owner.

Capital surplus is recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue, or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares.

Undistributed profits are determined on the basis of business results after corporate income tax and profit distribution.

The post-tax profit of the Company is distributed as dividends to shareholders after being approved by the Shareholders' Council at the Annual General Meeting of the Company and after provisions have been made for reserves as stipulated in the Company's Charter.

Dividends are recognized as accounts payable when approved by the Shareholders' Council.

Revenue and other income

Revenue from sale of goods

Revenue from sale of goods shall be recognized when it satisfies all the five (5) conditions below:

- (a) The Company has transferred to the buyer the significant risks and reward of ownership of the goods;
- (b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits associated with the transaction will flow to the Company; and
- (e) Costs related to transactions can be determined.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

Revenue from services

Revenue from services is recognized when the outcome of that transaction can be reliably determined. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognized in the year by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) Identify the completed work as at the balance sheet date; and
- (d) Determine the costs incurred for the transaction as well as the cost to complete the transaction to provide that service.

For interest, dividends, and profits shared and other income: Revenue is recognized when the Company has the ability to receive economic benefits from the activity and it is reliably determinable.

Cost of goods sold

Cost of goods sold or services rendered including the cost of products, goods, services, investment property, production cost of construction products sold during the period is recorded corresponding to revenue of the period. For cost which is over the normal level of inventories is recorded directly into the cost of goods sold.

Financial expenses

Borrowing costs: Recognized monthly based on the loan amount, loan interest rate, and actual number of days borrowed.

Current corporate income tax expense

Corporate income tax expenses (or corporate income tax income): is total current and deferred income tax expenses (or total current and deferred tax) in determining profit or loss of a period.

Current income tax expenses: are corporate income tax payable calculated on taxable profit during the year and current corporate income tax rate. Current income tax is calculated on taxable income and applicable tax rate during the tax period. Difference between taxable income and accounting profit is from adjustment of differences between accounting profit and taxable income in accordance with current tax policies.

The Company has an obligation to pay corporate income tax at the rate of 20% on taxable profits.

The determination of the Company's income tax is based on current tax regulations. However, these regulations change from time to time and the final determination of corporate income tax depends on the examination results of the competent tax authorities.

Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Corporation in case that party is under the same control or is subject to the same material effects.

When considering the relationship of related parties, the nature of relationship is focused more than its legal form.

26. FINANCIAL INSTRUMENTS

Capital risk management

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance.

The capital structure of the Company consists of net debt (borrowings, offset by cash and cash equivalents) and shareholders' equity (comprising capital, reserves and retained earnings).

Significant accounting policies

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses) for each class of financial asset and financial liability are disclosed in Note 4.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

Financial liabilities

	Carrying amounts	
	30/06/2025	01/01/2025
	VND	VND
Borrowings	34,727,733,073	34,727,733,073
Trade and other payables	387,969,555,377	387,769,065,518
Total	422,697,288,450	422,496,798,591

The Company has not assessed [has not determined] fair value of its financial assets and liabilities as at the balance sheet date since there are no comprehensive guidance under Circular No. 210/2009/TT-BTC issued by the Ministry of Finance on 06 November 2009 ("Circular 210") and other relevant prevailing regulations to determine fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS.

Financial risk management objectives

The Company has set up risk management system to identify and assess the risks exposed by the Company and designed control policies and procedures to manage those risks at an acceptable level. Risk management system is reviewed on a regular basis to reflect changes in market conditions and the Company's operations.

Financial risks include market risk (including interest rate risk and price risk), credit risk and liquidity risk.

Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates, interest rates and prices. The Company does not hedge these risk exposures due to the lack of active market for the trading activities of financial instruments.

Interest rate risk management

The Company has significant interest rate risks arising from interest bearing loans which are arranged. The risk is managed by the Company by maintaining an appropriate level of borrowings and analysing market competition to enjoy favourable interest rates from appropriate lenders.

Share price risk management

The Company is exposed to equity price risks arising from investments in subsidiaries and associates. The Company's Board of Management assesses and approves decisions on investments in subsidiaries and associates such as operating industry, investees, etc. Investments in subsidiaries and associates are held for long-term strategic investments rather than trading purposes. The Company does not have intention to trade these investments in the foreseeable future.

Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has a credit policy in place and the exposure to credit risk is monitored on an on-going basis. The Company does not have any significant credit risk exposure to any counterparty because receivables consist of a large number of customers, spread across diverse industries and geographical areas.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B09a-DN

These notes are an integral part of and should be read in conjunction with the accompanying financial statements

Liquidity risk management

The purpose of liquidity risk management is to ensure the availability of funds to meet present and future financial obligations. Liquidity is also managed by ensuring that the excess of maturing liabilities over maturing assets in any period is kept to manageable levels relative to the amount of funds that the Company believes can generate within that period. The Company policy is to regularly monitor current and expected liquidity requirements to ensure that the Company maintains sufficient reserves of cash, borrowings and adequate committed funding from its shareholders to meet its liquidity requirements in the short and longer term.

The following table details the Company's remaining contractual maturity for its non-derivative financial assets and financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial assets and undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.
